Environmental Policy

Classic Miniatures Ltd. manufactures and supplies badges, medals, awards, and plaques to a broad range of public sector and commercial clients, both in the United Kingdom and overseas. These include sports association, universities and schools, the armed forces, the civil service, local government, sports clubs, and corporate bodies.

In all our operations we are committed to reducing our environmental impacts and maximising our positive actions to increase the economic and social sustainability of our work.

To this end, we already carry out the following:

1. We comply with all relevant legislation.
2. We recycle all our waste metal, which is smelted and remade into other products.
3. We separate and ensure that all our waste paper is sent for recycling.
4. We do our best to conserve energy by switching off all electrical devices when not in use.
5. Our own branded packaging is made from bio degradable materials, and wherever possible we request packing suppliers to offer similar standards.
6. We endeavour to minimise the carriage of goods by combining deliveries.
7. We do not support the use of company vehicles, and use public transport wherever possible.

SPORTS MEDALS - MEDALS MADE TO ORDER - MEDAL BOXES - MEDAL RIBBONS - PRESENTATION CUPS - SPORTS AWARDS - SILVERWARE ENAMELLED BADGES - CONFERENCE BADGES - INDUSTRIAL LABELS - NAMEPLATES - PLAQUES ETCHING - SCREEN PRINTING - ENGRAVING - GLASS DECORATED TO ORDER

8. We encourage the reduction of waste through minimising consumption of materials such as paper, printing ink, packaging materials, and in all aspects of production.

9. We neither use paper cups or plates nor drink vending machinery. All our staff have access to a kettle and re-usable crockery.

10. We keep an eye on energy costs, and endeavour to use the most competitive supplier.

11. All damaged or surplus glass and crystal is separated and recycled.

12. We give preference to suppliers whose products can be recycled, are based on fair trade, can be obtained from local supplies, or are sustainable produced products.

A copy of this policy has been made available to all staff members who are expected to follow these guide lines. Customers may also view this environmental policy via the Company website.

Our Operations Director is responsible for ensuring that the policy is carried out in practice. We will review the policy annually and improve it wherever possible.

Michael Cross
Chairman
